Introduction to Cybersecurity

Yash Chauhan

Full Stack Developer | DevSecOps & Cloud Enthusiast | PHP, MySQL, Docker, Jenkins, AWS | Actively Seeking Opportunities
Pune District, Maharashtra, India

Summary

I'm Yash Chauhan, a Full Stack Developer with over a year of hands-on experience, currently pursuing my MCA. My core strengths lie in building reliable backend systems using PHP (CodeIgniter) and MySQL, along with responsive front-end interfaces.

Recently, I completed a remote internship with TCS iON, where I worked on a project focused on securing Docker environments. This experience introduced me to real-world DevSecOps workflows and helped me understand how to apply security best practices in cloud-based and containerized setups.

I enjoy solving practical tech problems, writing clean code, and continuously improving my skills in development, automation, and cloud tools like AWS and Jenkins.

Technical Highlights

- Web Development (PHP, CodeIgniter, JavaScript, HTML/CSS)
- Database Management (MySQL)
- Containerization (Docker)
- CI/CD & Automation (Jenkins)
- Basic AWS Cloud Deployment
- Cyber Security Foundations

Currently open to: Full-time roles in Full Stack Development, Cloud/DevOps, or Security-focused development environments.

Let's connect and explore how I can contribute to your team!

Experience

Flipkart

Learning and Development Consultant

July 2025 - Present (9 months)

Mumbai, Maharashtra, India

Currently working as a Trainer with Futurz Staffing Solutions Pvt. Ltd., deputed at Flipkart India Pvt. Ltd.

TCS iON

3 months

Cyber Security Intern

May 2025 - June 2025 (2 months)

India

Successfully completed a 125-hour remote internship under TCS iON's Cyber Security domain.

- Worked on the project titled "Secured Docker Based Lab: Enforcing End-to-End Security"

- Designed a secure Docker-based infrastructure to run applications with multiple layers of protection

- Gained insights into container security, cyber security tools, and secure lab setup

- Improved understanding of DevSecOps principles and real-world security implementation

- Collaborated with industry mentors and completed the internship with academic credit

Cyber Security Intern

May 2025 - June 2025 (2 months)

Pune, Maharashtra, India

Successfully completed a 125-hour remote internship with TCS iON, working on the project titled "Understanding CAPTCHA - Build a CAPTCHA Service that Secures a Simple Web-Based Application". Gained hands-on experience in building web security features and understanding CAPTCHA technologies under the guidance of industry mentors.

DevOps Intern

April 2025 - May 2025 (2 months)

I completed a 125-hour remote internship with TCS iON, where I worked on a project titled: "Develop Containerized Jenkins Pipeline on AWS Cloud."

Through this internship, I gained hands-on experience in DevOps practices, including:

Building CI/CD pipelines using Jenkins

Containerizing applications with Docker

Deploying solutions on the AWS Cloud

Guided by experienced industry mentors, I sharpened both my technical skills and real-world problem-solving abilities while working in a professional, remote environment.

Cert. ID: 1086-25286002-1016

Duration: 04 April 2025 – 14 May 2025

ShadowFox

Web Developer

April 2025 - April 2025 (1 month)

During my Web Development Internship at @ShadowFox, I worked on a live client project, where I was involved in designing, developing, and improving web-based solutions. I contributed to both the front-end and back-end, ensuring the final product was responsive, functional, and aligned with the client's expectations.

This experience allowed me to strengthen my skills in web technologies such as HTML, CSS, JavaScript, and Git. It also gave me valuable insights into real-world development practices, client collaboration, and working effectively in a remote team environment.

NITS GLOBAL

Full-stack Developer

April 2024 - March 2025 (1 year)

Pune, Maharashtra, India

Education

Vishwakarma University - VU

Master of Computer Applications - MCA, Commerce and management · (July 2023 - April 2025)

Uka Tarsadia University

Bachelor of Computer Application, Computer Science · (August 2020 - April 2023)
