Summary

MCA Graduate with experience in **Cybersecurity, DevOps, and Full Stack Development**. Worked with **TCS iON, Mastercard (Forge), and NITS Global**. Skilled in **PHP, MySQL, JavaScript, Docker, Jenkins, and AWS**. Built secure web apps, automated deployments, analysed security threats, and optimized backend performance.

Experience

Mastercard Cybersecurity virtual experience program on **Forge** -

June 2025

- Completed a job simulation where I served as an analyst on Mastercard's Security Awareness Team
- Helped identify and report security threats such as phishing
- Analysed and identified which areas of the business needed more robust security training and implemented training courses and procedures for those teams

Cyber Security Intern at TCS iON (Tata Consultancy Services)

Remote (May 2025 – June 2025)

- Successfully completed 125-hour internship projects focused on web application security and container security.
- Project 1: "Understanding CAPTCHA – Build a CAPTCHA Service that Secures a Simple Web-Based Application"** - 
 - Developed and deployed a custom CAPTCHA solution to protect web forms against automated bots.
 - Gained hands-on experience in human verification techniques and secure web development practices.
- Project 2: "Secured Docker Based Lab: Enforcing End-to-End Security"** - 
 - Designed and implemented a secure Docker lab environment for container-level security testing.
 - Applied threat mitigation techniques and integrated DevSecOps principles.
- Strengthened foundational and practical knowledge of cybersecurity tools, secure coding, and lab setups.

DevOps Intern at TCS iON (Tata Consultancy Services) -

Remote (Apr 2025 – May 2025)

- Completed a 125-hour project titled "Develop Containerized Jenkins Pipeline on AWS Cloud".
- Built and deployed a CI/CD pipeline using Jenkins, Docker, and AWS (EC2, S3).
- Automated software build and deployment workflows following DevOps best practices.
- Gained hands-on experience in cloud infrastructure and pipeline optimization.

Full Stack Developer at Nit Global -

Pune (Apr 2024 – Nov 2024)

- Developed a full-fledged Learning Management System (LMS) using CodeIgniter with features like user enrollment, course tracking, and progress analytics.
- Built and integrated WhatsApp and Email Campaign modules using third-party APIs.
- Optimized backend workflows and database queries, reducing support resolution time and improving performance.
- Ensured platform security through role-based access control and session management.

Projects

Learning Management System – SaaS | PHP (CodeIgniter 4), JavaScript, Bootstrap 5, HTML5/CSS

Apr 2024 – Mar 2025

- Developing and maintaining a Learning management system as a SaaS platform to streamline tenant.
- Integrated real-time notifications using Socket.io and WhatsApp APIs for system alerts.
- Ensured database scalability and optimized query performance for efficient multi-user access.

- Developed a role-based Task Management System with hierarchical workflows (CEO → Manager → Employee) for task delegation, submission, and multi-level approvals.
- Implemented automated status tracking (Pending/In Progress/Completed/Approved) with email notifications for task assignments and approvals.
- Secured system with role-based access control (RBAC) and MySQL database for audit trails and optimized task history.

- Designed a multi-role event booking platform with dashboards for clients, vendors, and admins.
- Built an online booking system with PayPal integration and availability tracking.
- Conducted testing and database optimization to ensure system reliability and performance.

Technical Skills

Programming Languages: PHP, JavaScript
Frameworks: CodeIgniter 4, Bootstrap
Databases: MySQL
Frontend Technologies: HTML5, CSS3
Cloud & DevOps: AWS (EC2, S3), Docker, Jenkins
Testing Tools: Selenium
Version Control: Git, GitHub
Tools & APIs: Postman, WhatsApp API, PayPal Integration
Cybersecurity Tools: Security Awareness (Phishing Detection), CAPTCHA Implementation
Core Competencies: CI/CD Pipelines, Container Security, DevSecOps, API Integration, Database Management, Networking (IP/Subnetting), System Design

Education

B. V. Patel Institute of Computer Science, Uka Tarsadia University - Surat	2020 - 2023
BCA: Bachelor of Computer Applications	CGPA: 7.28
Vishwakarma University – VU Pune	2023 - 2025
MCA: Master of Computer Applications	CGPA: 7.85

Extra-Curricular Activities

Participants of Visionary Techfest Hackathon – 2024
GDSC – Solution challenge – 2024
National Service Scheme (NSS) - 2021 – 2023
